Who did not think about the world as a child, if we "shrink"? This time in our giant games our guests can be the puppets and the characters themselves! We invite you to take part in a fantastic adventure where the challenge is real, the dice are big and our guests are the puppets.

Full relaxation for the whole family, friends and of course for couples as well!

Our games:

Giant domino: The youngest of the family can play their part in the fun! „Demolish or finish it”

Giant marocco: our sticks made of bamboo are light, our rules are given! Collect even more!

Giant jenga: an exciting game which captures every participants! Remember, do not shake your hand and if the tower leans, RUN!

Giant mill: the classic game played on a 5*5 m board with bag filled with flour instead of discs!

Giant slingshot: You have not seen this before „Angry Birds”- hungarian style, can you hit the target?

Swinging bowling: a game does not easy as it seems... Lay down every puppet!
